

Home Textiles

Home Textiles can be a dedicated high-value manufacturing segment within the Shahapur Fiber-to-Fashion Industrial Park, using fabric produced by the park's spinning, weaving, knitting, processing and dyeing units.

Product Range

The Home Textiles Zone can manufacture:

-  Bedsheets & pillow covers
-  Cushion covers
-  Towels & bath linen
-  Curtains & drapes
-  Blankets & throws
-  Hotel linen
-  Tablecloths & napkins
-  Kitchen textiles
-  Upholstery fabrics
-  Home décor textiles

Fiber-to-Home

The park's integrated ecosystem allows:

Fibre

Yarn

Weaving / Knitting

Dyeing & Processing

Home Textile Manufacturing

Packaging

Warehouse

Logistics

Domestic + Export Markets

Export Opportunity

Home textiles can be particularly suitable for an export-oriented manufacturing cluster, producing products according to international buyer specifications.

Potential customer segments include:

- Hotels & resorts
- Hospitals
- Retail chains
- Interior companies
- E-commerce brands
- Home furnishing brands
- Export houses
- Institutional buyers

Manufacturing Facilities

A modern unit could include:

Fabric Store → Cutting → Stitching → Embroidery/Printing → Finishing → QC → Packing → Finished Goods Warehouse

For larger units, automated cutting, computerized embroidery and digital printing can increase productivity and product variety.

Sustainable Home Textiles

The park can encourage:

- Recycled fibres
- Organic/natural fibres where commercially viable
- Low-water processing
- Recycled packaging
- Solar power
- Textile-waste recycling
- Water recycling through common treatment infrastructure

Investment Opportunities

The zone could accommodate:

Large manufacturers — hotel linen, towels, bedsheets and export products.

MSMEs — specialized home décor and customized products.

Private-label manufacturers — produce for Indian and international brands.

Premium manufacturers — sustainable and high-quality home textiles.

Project positioning

HOME TEXTILES HUB

“From Fibre to Home — Designed, Manufactured & Delivered from Shahapur.”

Complete ecosystem

The Shahapur concept now has 7 major business verticals:

1. Spinning & Yarn
2. Weaving & Knitting
3. Processing & Dyeing
4. Garments & Apparel
5. Home Textiles
6. Logistics Ready
7. Green Utility
8. Community & Skills

Together, these can form the core of a Fiber-to-Fashion + Fiber-to-Home integrated textile industrial ecosystem.
